
Escape the Room

*Hannah Davies, Sydney Yarnell, Cole
Lambert, Aimee Spaulding*

Escape the Room Murder Mystery

This will take place in the Village Promenade, 1623 W University Ave, Muncie, IN 47303. It will last from 3 pm- 6pm.

An escape the room, is a fun and accelerating activity with a group of people that are given clues and try to escape the room within 60 minutes. IU Medical students will need to sign up using the QR code on the flyer, there will be different time slots. Each group will need to arrive 15 minutes before their scheduled time. Each group will have an hour in the room. Dictated by a hourglass.

The Idea of the Escape the Room

The theme of this Escape the Room is Murder Mystery. The game starts off with a letter from the patients' doctor saying,

"Our patient needs your help."

Then you must find and read through the doctor's notes hidden and locked within the room. If you make it out in time, you will know what happened to Doctor and his patient.....

Schedule of the Event

Two days before, we will go to the stores Walmart, Lowe's, and Joann's to get the decorations, locks, puzzles, and anything else we need.

Welcome,

Our patient needs your help to find discover the cure that will allow him/her to recover from the coma has been in. You will be given an hour to find five different items and combine them together to make the antidote. Be careful about not getting caught by the doctor, he may or may not be helping to save this patient. Keep your wits about you and work together to find the clues find the keys and codes and then you will unlock the truth to what happened to this patient. You have 60 minutes before the doctor comes back to figure out what happened, do you think you're up for the challenge.

The Doctor has left you a note...
I've done everything I can for this patient there's nothing left for me to do or that can help this patient out of the coma. If anyone tries to mess around with my patient without me knowing about it there will be consequences.

Doctor's assistant (clue 1)

Be careful about what the doctors told you there's a cure for our patients' tragic accident. You need to keep your wits about you when you discover all three of the different solution you must know if you combine them or if one of them is dangerous if they are mixed. A clue that'll help is that the doctor hides some of his work or codes with invisible ink so try and find the UV light that we allow you to see his hidden work.

Doctor's assistant (Clue 2)

Once you've found all five puzzles you'll be able to crack the code bring back the antidote for the patient and escape the room in time before the doctor gets back.

Flyer

Come join your fellow medical students and do an Escape the Room. If you participate you will get a \$15 gift card for a restaurant in the Village and a water bottle. The winning group, the least amount of time will get a gift basket including additional gift cards, and a bottle of wine.
