

Undergraduate Mathematics Students

BE A PART OF THE MATHEMATICS COMMUNITY!

The Ball State Undergraduate Mathematics Exchange (ISSN 1550—1736) is a journal for undergraduate research in the mathematical sciences. It is a forum for student activities, which are not necessarily original research but go beyond standard classroom material.

We accept articles of interest to all types of mathematics undergraduates (e.g., Pure Mathematics, Statistics, Mathematics Education, and Actuarial Science). Often the articles are written by undergraduates individually, working in teams, or working with faculty. On occasion we also include articles written solely by faculty as long as they are accessible to undergraduates.

- All issues are available online.
- Hard copies available by contacting the managing editor.
