

URBAN

ANTHROPOLOGY

WHY CARE ABOUT YOUR CITY?

Your city is where you live, you affect it and it affects you. Your surroundings make you who you are and shape your life.

WHY CARE ABOUT URBAN ANTHROPOLOGY?

Urban Anthropology
helps you understand
how you interact with
the city around you and
how your city functions.

WHAT DO URBAN ANTHROPOLOGIST

DO?

FOR OUR PROJECT WE ARE DOING

1. WALKING INTERVIEWS

2. PARTICIPANT OBSERVATION

3. ZINES LIKE THIS ONE!

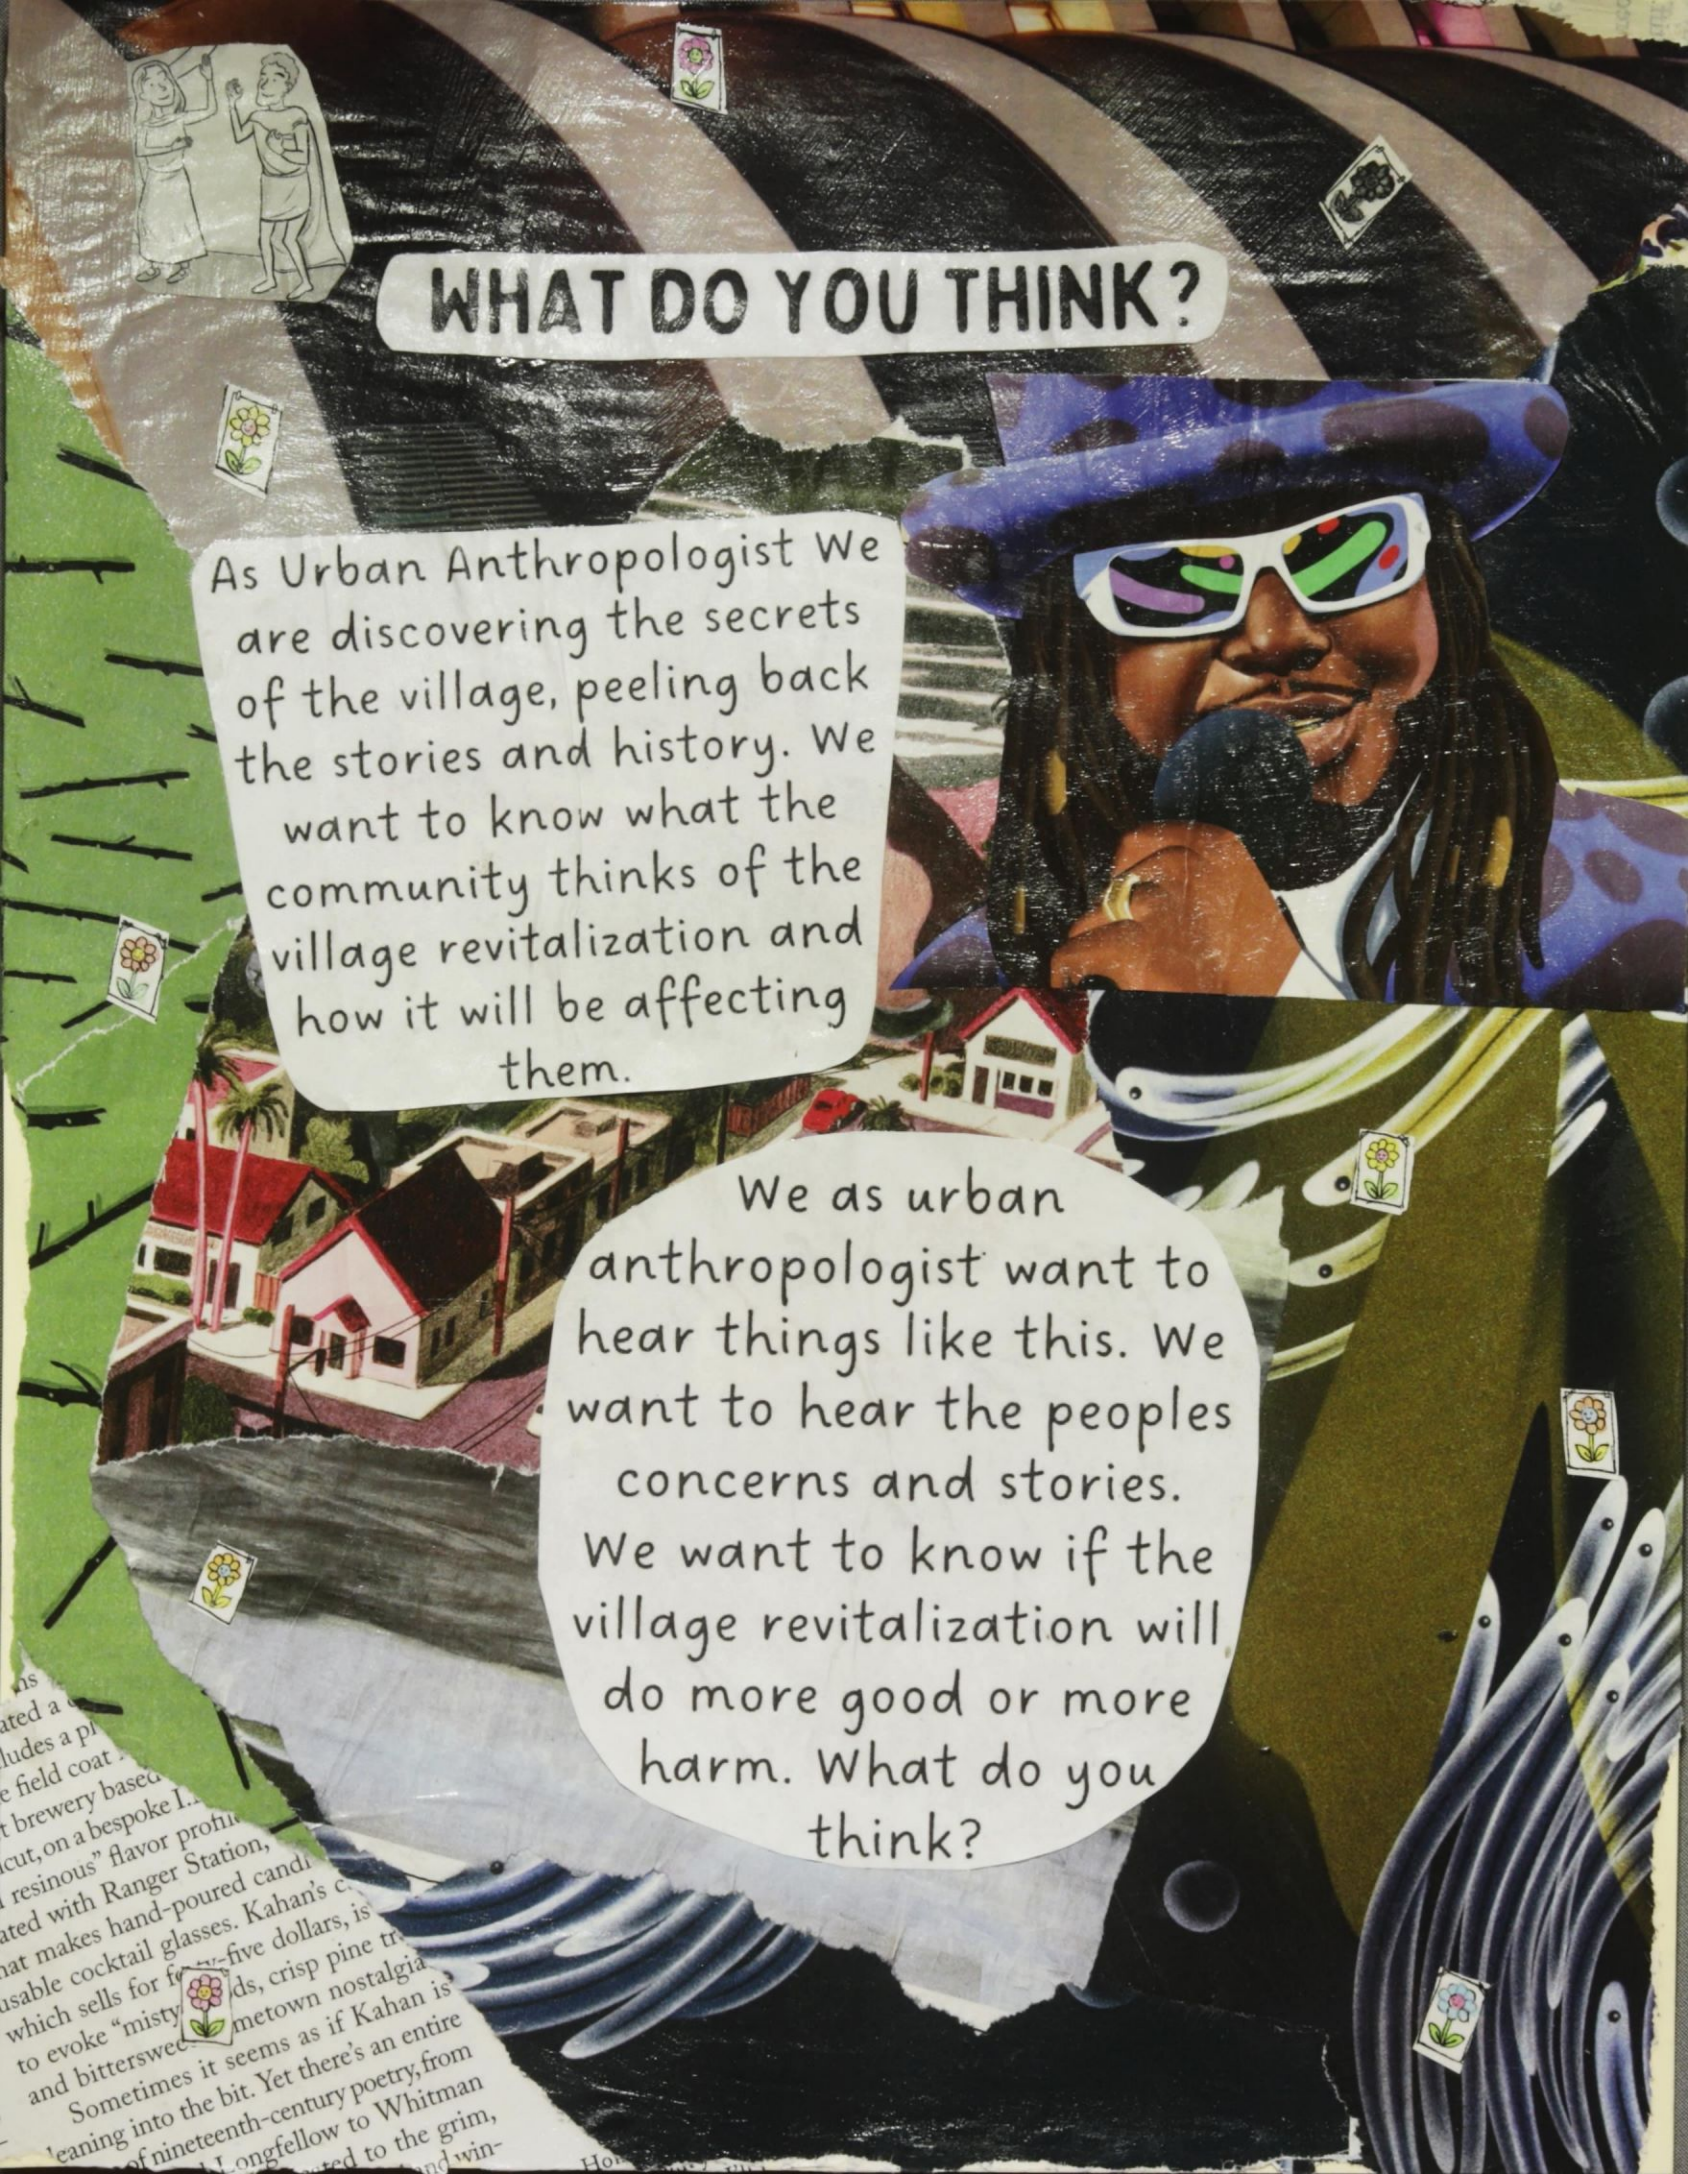

4. ARCHIVAL RESEARCH

5. QUALITATIVE INTERVIEWS

6. QUANTITATIVE SUR

7. SCAN PARTY OF THE VILLAGE

WHAT DO YOU THINK?

As Urban Anthropologist We are discovering the secrets of the village, peeling back the stories and history. We want to know what the community thinks of the village revitalization and how it will be affecting them.

We as urban anthropologist want to hear things like this. We want to hear the peoples concerns and stories. We want to know if the village revitalization will do more good or more harm. What do you think?

URBAN *place*-

has cultural and historical significance at a place and has meaning.

(Can you think of an example of an urban place and an urban space?)

URBAN SPACE-

has no meaning and is the literal physical space.
